INTERNATIONAL TRADE FAIR FOR CIVILIAN, FIRE PROTECTION AND RESCUE

secty electronics GmbH presented itself at the fair for the first time
CIVIL PROTECT 2013 IN BOZEN of the 22.03. - 24.03.2013

with his earthquake in front of earthquake warning system „secty lifePatron®“. System solutions to the earthquake early warning both for the Indoor and for the Outdoor were presented as a so-called "public warning".

Earthquake could inform the fair visitors himself exhibited at this, as this in front of earthquake warning system earthquake takes over also modern management functions besides the acoustic and visual earthquake early warning, such as gas switching off or machines in front of warning system switches to sure operating states.

With 3D animations the visitors shown clearly got as secty lifePatron® reacts to different Magnitudes/ Intensities.
